

December 2012  
Fabric List

Made Here 

## FABRIC CLEANING CODES

Fabric Cleaning Codes determine the best and least expensive methods of home cleaning for your furniture. Due to the various ways that furniture can stain or damage, there is no guarantee that the results will be completely successful. Use the suggested methods at your own discretion. Always pre-test on a small area before proceeding.

To prevent overall soil from dust and grime, frequent vacuuming or light brushing is recommended. Use a professional cleaning service when an overall soiled condition has been reached.

### **WATER BASED CLEANER**

Spot clean, using the foam only from a water-based cleaning agent such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Use sparingly. Avoid over wetting. Vacuum when dry.

### **SOLVENT CLEANER**

Spot clean, using mild water-free or dry cleaning product. Clean only in a well ventilated room and avoid any product containing carbon tetrachloride or other toxic materials.

### **WATER / SOLVENT CLEANER**

Spot clean with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or a dry cleaning product, follow the instructions carefully and clean only in a well ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pre-test a small area before proceeding.

### **VACUUM ONLY**

Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust and grime. Water-based foam cleaners or solvent-based cleaning agents of any kind may cause excessive shrinking, staining or distortion of the surface pile and therefore, should not be used.

### **DRY CLEAN ONLY**

This fabric should be dry cleaned by a professional only.

**CAUTION:** Use of water-base solvent cleaners may cause spotting and/or excessive shrinking. Solvent cleaning agents will not remove water stains.

**NOTE:** Any after market fabric treatment will automatically void Fabric Warranty

Contents: A = Acrylic, C = Cotton, EC = Eco Cotton, E2C = Eco2 Cotton, EMC = Egyptian Mercerized Cotton, F = Flax, H = Hemp, L = Linen, N = Nylon, OC = Organic Cotton, OL = Olefin, P = Polyester, PP = Polypropylene, R = Rayon, RP = Recycled Polyester, PIP = Post Industrial Polyester, PCP = Post Consumer Polyester, PU = Polyurethane, V = Viscose, W = Wool
